ERHARD LUTTKAU COMPANY – YOUR SPARE PARTNER

The Erhard Luttkau GmbH, located near Hamburg (Fed. Republic of Germany) is a registered, private enterprise. The company has been founded in 1983 by the Engineer Erhard Luttkau. Today the company employs over 30 motivated and well-qualified professionals and works for

worldwide clients. The company has gained the latest DNV-GL certificate for standards DIN EN ISO 9001 and DIN EN ISO 14001. Also we are Authorised Economic Operator since 2012.

SERVICES

In case of emergency we can be contacted seven days a week, 24 hours a day. We have a strong relationship to our worldwide suppliers and manufacturers. You can expect reliable and on-time deliveries. Spare parts can be made from a sample or drawing with a short turnaround time.

We know that time is money and how much money it could be, especially in shipping business. Deliveries are performed either directly by us or by a carefully selected forwarder.

Our customs department and a bonded warehouse allow us to perform all customs formalities, either import or export. Therefore, we can operate independent of the restricted operating hours of the customs offices and guarantee a quick delivery. If your schedule requires it, we can also provide an interim storage, due to our existing warehousing capacity. Additionally we are able to recondition most of the parts like e.g. piston crowns, fuel injection equipment, electronical motors and many other units, in workshops together with approved and efficient partners.
